Single banned in hype probe

SALES

As part of an ongoing investigation into hyping, CIN acted late on Friday evening to disqualify a single from the chart.

The record, which was released last Monday, was in the midweek Top 40 but CIN obtained conclusive proof that the record's performance was being unfairly manipulated and ruled it ineligible.

It's the first time a record has been excluded from the chart since Millward Brown took over compilation duties from Gallup in February 1994. The last record to suffer a ban was **Don-E**'s Peace In The World, in July 1992.

On a more positive note, big selling new releases debut at the top of both the singles and album charts this week. Ending **Michael Jackson**'s reign at the top of the singles chart, by a very all margin, is **Shaggy**'s Boombastic. his second number one, following 1993's Oh Carolina, and the fifth number one so far generated by Levis 501 advertising campaigns.

Blur's The Great Escape made its anticipated splash at the top of the album chart. It sold nearly 190,000 copies last week - more than the rest of the Top 10 artist albums put together.

The last album to sell more copies in a week was **Take That**'s Nobody Else, which sold approximately 250,000 copies in the week of its release in April. The Great Escape spurred album sales to their second highest level of the year, just a little below the level they reached at Easter.

Aside from Blur, the **Red Hot Chilli Peppers, Lenny Kravitz, Inspirations** and **The Rembrandts** all had albums debut in the Top 20.

For the third week in a row, compact discs' share of the album market reached a new peak, climbing to 71.5%, leaving cassettes in a poor second place with 26.3% (their lowest level for over 15 years) and vinyl on 2.2%.

The singles market also continues to shift in favour of CDs, though this ek's CD market share (58.3%) is 0.2% w the record it established last week. With only three formats eligible for the singles chart, the seven-inch share of the market is falling away with increasing rapidity. This week it stands at a new low of 1.3%.

In the run-up for the Mercury Music Prize, most of the albums benefitted, including **Portishead**'s Dummy, which increased its sales and climbed the chart five weeks in a row, without the stimulus of a current single.

Having now won the competition, it registers a more significant upsurge this week, climbing from number 24 to number nine, with an estimated 6,000 additional sales.

AIRPLAY

Simply Red's Fairground is the number one airplay hit for the third week in a row. The level of airplay it received in its first two weeks at the top was impressive but it makes a further surge this week, adding another 192 plays, to establish a new high of 1,467 plays from the stations on Media Monitor's panel.

Michael Jackson's You Are Not Alone continues to shadow it and increases its tally of plays to 1,445. Simply Red will be looking to add the sales crown to their airplay title next week and have occupied the number 11 slot on the Network Chart for the past fortnight.

Since the Top10 is based on sales alone and therefore always identical to the CIN chart, number 11 is as high as any record can get on the Network Chart prior to release - and Fairground is the first record to do it.

Other records have generated substantial airplay and thus fairly high Network Chart positions prior to release and one - **Andy Bell** and **KD Lang**'s No More Tears (Enough Is Enough) has reached the Top 20 on airplay without subsequently being released as a single (it remains available only on The Coneheads film soundtrack).

With just one week to go before it is released, **Pulp**'s upcoming single, which pairs Mis-Shapes and Sorted For E's & Whizz, is still shy of the Top 50 - but only just. The former track is ranked 51st and was played 46 times last week and the latter 53rd after 41 plays. If they were to have their audiences added together they would rank 28th on the chart.

Four months after it topped the CIN sales chart, **Livin' Joy**'s Dreamer is one of the biggest climbers in the airplay chart this week, moving from 50 to 36, on the back of renewed support from Atlantic 252, which accounts for 69 of its 100 plays this week.

Shaggy's Boombastic is top of the sales apex and earning massive TV and cinema exposure via its Levis 501 gig but its success appears to have caught programmers by surprise. It ranks only 38th on airplay this week with 140 plays, a little over two per station. Expect a big re-think on this one.

The Bosnian charity album Help has attracted a fair amount of airplay in the past week. Of the 20 tracks (which aren't actually listed anywhere on the packaging or CD), the one most favoured seems to the **Paul Weller, Noel Gallagher** and **Paul McCartney** rendition of Come Together. Virgin is its most fervent fan, playing it 10 times last week.
