THIS WEEK'S CHARTS

ANALYSED BY ALAN JONES

An unchanged Top Five in this week's singles chart leaves **Madonna's** 'Like A Prayer' at number one for the second week, whilst her identically titled album debuts at number one on the long player chart.

Maddy's the first woman to twice top the singles and albums charts simultaneously, having previously done the double in 1986 with 'Papa Don't Preach' and 'True Blue'. Only two other women have managed to top the singles and albums listings at the same time — **Barbra Steisand** was the first, in 1980, with the single 'Woman In Love' and the album 'Guilty', and in 1987 **Whitney Houston** made a clean sweep with 'I Wanna Dance With Somebody' (Who Loves Me) and 'Whitney'.

'Like A Prayer' isn't only Madonna's sixth number one single, it's her seventeenth consecutive top ten hit — the sixth longest sequence ever. **Cliff Richard** leads the way, having reached the upper echelon 26 times in a row between 1960 and 1965, followed by **the Beatles** (24 in a row), **Elvis Presley** (23), **the Rolling Stones** (19) and **Abba** (18).

● 'Another Place And Time' is **Donna Summer's** 13th chart album in Britain. Only three women have had more — **Shirley Bassey** (28), **Diana Ross** (26) and Donna's one-time vocal partner **Barbra Streisand** (15). The list of women who've reached double figures is completed by **Joni Mitchell** (11), **Olivia Newton-John**, **Dionne Warwick** and **Joan Armatrading**, all of whom have had 10 hit albums.

● **Compilation** reigns over two albums that entered the compilation album chart last week. Released on the same day were rival collections each bearing the title 'Hip House'. From Stylus Music came a 20 track

album including **Adeva's** 'Respect', **Milli Vanilli's** 'Girl You Know It's True' and **Rob Base & DJ E-Z Rock's** 'Get On The Dance Floor', whilst K-Tel plumped for a fourteen track package featuring such rarely compiled gems as... Adeva's 'Respect', Milli Vanilli's 'Girl You Know It's True' and Rob Base & DJ E-Z Rock's 'Get On The Dance Floor'.

The Stylus album is obviously better value on a tracks-per-penny basis, as both albums have identical retail prices, but many buyers may find its sound quality inferior, on vinyl at least, as it contains upwards of an hour's music, and is therefore, more tightly packed and quieter, with limited bass response and increased surface sound. Nevertheless, the stylus album stormed onto the chart at number three last week, whilst the K-Tel disc made a quiet debut at number 18.

CHARTFILE USA

'Eternal Flame' this week becomes the **Bangles'** second number one single, following 'Walk Like An Egyptian', which was the Christmas chart topper of 1986.

That song was written by US expatriate **Liam Sternberg**, who lives in London. 'Eternal Flame' was penned by the similarly surnamed **Billy Steinberg**, along with **Tom Kelly** and **Bangles'** leader **Susanna Hoffs**. It is Susanna's first number one as a writer, but the fifth for Kelly and Steinberg in a remarkable run which started with 'Like A Virgin', a number one hit for Madonna in 1984, and continued with 'True Colours' (**Cyndi Lauper**, 1986), 'Alone' (**Heart**, 1987) and 'So Emotional' (**Whitney Houston**, 1988).

● **Donny Osmond's** debut album for Virgin spawned one medium sized hit ('Soldier Of Love', which reached number 29) and two minor successes ('I'm In It For Love' and 'If It's Love That You Want' which both peaked at number 70) in Britain, but didn't do well enough to

● THE BANGLES: another flaming hit

convince the company to renew his contract.

That's a decision they may now regret, since the aforementioned 'Soldier Of Love' became a hot record in Los Angeles after several radio stations started playing it without announcing the artist's identity. Subsequently licensed to EMI's Capitol label, it was rush released, and was the highest debuting single on the Hot 100 last week at number 73. This week it jumps another 19 places to 54. It's Donny's first hit since 'C'mon Marianne' in 1976.

● Sales of records in America reached their highest ever level in 1988, just as they did here.

Singles sales rebounded slightly from 87.1 million to 89.7 million, due to the significant growth of the cassette as a singles medium. It now accounts for a quarter of all singles sales stateside,

compared to rather less than one per cent here.

Albums sales streaked ahead, climbed from 619 million in 1987 (and 523 million in 1986) to 672 million in 1988.

The pattern of album sales in the US differs greatly from the UK. In both countries, the cassette is the favourite medium, but whilst it commands two thirds of the US market (67 per cent) only just tops half (51 per cent) here. Compact Discs have caught on marginally more quickly in America, taking 22 per cent of total sales, compared to 18 per cent in Britain.

Finally, whilst vinyl remains a fairly popular format in Britain, with 31 per cent of sales, it is becoming increasingly unimportant to American record companies, with only 11 per cent of albums sold in America last year — 10 per cent less than one in nine — pressed on vinyl.
