CHART FOCUS

Chesney Hawkes successfully fights off the challenge of James to take a third week at number one, but both records are now in decline, so next week's number one could be either the Waterboys' six-year-old Hole Of The Moon or Rescue Me by Madonna, though the odds are slightly in favour of The One And Only becoming the first four week winner of 1991. While that's something of a disappointment for James, they must be well pleased that their 1991 version of Sit Down did so well — their original 1989 recording of the song peaked at number 77.

Rescue Me debuts at number four, to become the eighth single by Madonna to become an instant top five hit, following Into The Groove (which debuted at number four), True Blue (number three), La Isla Bonita (number five), Who's That Girl (number three), Like A Prayer (number two), Vogue (number four) and Crazy For You (number two). All, Madonna has now had 25 Top 10 hits, among them

seven number ones, but each of her last three hits has peaked at number two.

While Maddy's appeal seems undimmed, George Michael's last few singles have brought ever diminishing returns. This week his latest, Cowboys and Angels, slumps from its peak of number 45 to number 61. It's his first single ever to fall short of the Top 40, and the fourth single in a row from his album Listen Without Prejudice Volume 1 to mark a new low point in his singles chart career.

Curiously, sales of Listen Without Prejudice are reportedly nearing a million in only eight months, eclipsing

the 900,000 or so that Faith has sold so far. Not bad, considering all five Faith singles were Top 20 hits.

Dannii and Kylie Minogue are the first sisters ever to have separate Top 10 hits. Dannii's first, Love And Kisses, rises five places to number 10 this week.

Finally, even though sales of singles are likely to be further diminished by recent VAT increases which push prices over £2 for seven inch singles for the first time (WH Smith, for example, now charges £2.05) there are lucrative hidden benefits for hitmakers, not least from the inclusion of their recordings on compilation albums. Nomad's (I Wanna Give You) Devotion, for example, will keep its creator, Damon Rochefort, out of the poor house for some time. In various mixes, it can be found on all of this week's top three compilations (Now 19, Thin Ice — The First Step and Hardcore Uproar) as well as the newly issued Rage — Make Some Noise Volume 1.

Alan Jones

ANALYSIS

Import singles have played a crucial role in bringing new sounds from across the Atlantic ever since the early days of rock 'n' roll.

And today enterprising distributors are growing ever more aware of the demand for import albums prior to their UK release.

The Doors movie soundtrack was usurped by hundreds of import copies from the US coming on to the market a month before the official UK release at the end of March.

Even the fact that all the tracks had been previously available in the UK since the early Seventies didn't stop it topping London store Selfridges' in-house album chart last month.

That the album was an import at all helped sell copies on its own. Director of import specialist distributor Greyhound Records Tony

He admits: "Some people think of us as parasites but others think of us in terms of free promotion."

With the Doors import selling just a few hundred copies, WEA marketing manager Tony McGuinness is certainly not worried.

Import singles can be a nuisance if they take the attention away from official releases, he says, but albums

sales," says McGuinness philosophically.

In February the German album Bite by Ned's Atomic Dustbin reached number 72 in the Gallup chart on import; a rare example of an album achieving the volume of sales needed for chart status.

Even the most successful import albums can only muster a few thousand copies. One of Greyhound's biggest hits was the Joyce Sims album Come Into My Life, which shifted about 5,000 copies on import before official release.

Hickmott claims the success of the album broke the artist in the UK, just like Anita Baker's The Songstress, which sold around 10,000 copies on import before its UK release.

"If we hadn't done as well with Joyce Sims and Anita Baker they might never have broken through."
