CHART FOCUS

Crystal Waters' Gypsy Woman (La Da Dee) dashes into the singles chart at number three, thus pulling the highest ever debut by an uncharted act, established by **Vanilla Ice and Ice Cube's Baby** last year. The only other uncharted acts including charity recordings to make their initial appearance in the Top 10 are **Partners In Kryme**, whose **Turtle Power** entered the listings at number four last year, and a pair of records that came in at number five: **Boyz n the Hood In My Shoe** by **Neil Young** (1984) and **Beat Dis** by **Bomb the Bass** (1988).

In America, where it's titled **Gypsy Woman (She's Homeless)**, Water's record is so tipped for great things, and this week moves from number 76 to number 57.

Gypsy Woman seems certain to be the next number one, if not next week, then the week after.

Re-released to tie-in with their forthcoming hits album **Remedios**, **Soft Cell's 1981** chart champ **Tainted Love** re-

enters the chart at number 10 this week, no doubt partly because the current release includes a new mix of the track by **Julian Mendelsohn**, as well as the original recording. This is **Tainted Love's** first visit to the chart since 1985. It has now spent a grand total of 37 weeks on the chart, a span bettered by only 16 records in chart history. If — as seems likely — it can spend six weeks in the chart this time around, it would become one of the 10 longest running hits of all time.

Eurythmics Greatest Hits is once again the number one

ERA informs us that transmission problems resulted in a number of errors in last week's Top 75 Artist Albums chart:

- **In Concert** by **Carreras Domingo Pavarotti** should have appeared at 32
- **Enigma's MCMX AD** dropped from 39 to 44
- **The Best Of Rod Stewart** rose from 52 to 49
- **Eurythmics Greatest Hits** had been on the chart for seven and not six weeks

album, though it was only fractionally ahead of the week's hottest new release, **Time, Love & Tenderness** by **Michael Bolton**. Bolton's last album **Soul Provider** peaked at number four, but has sold more than a million copies in the UK, and has featured in the Top 75 every week since it made its debut 62 weeks ago. It has the longest uninterrupted chart career of any current album.

Tucked in behind Bolton, **EMF's** critically acclaimed first album, **Schubert Dip**, makes a promising first showing at number three, following the success of their first trio of singles **Unbelievable**, **I Believe** and the current **Children**.

Finally, congratulations to new label **Freestyle**, whose first chart entry, **Keep The Music Playing** by **Shirley Bassey**, debuts at number 28. It's only Bassey's second Top 40 album in the last decade, following **I Am What I Am**, a 1984 release on the ill-fated **Towerbell** label.

ANALYSIS

Record sales may be suffering, but the recession could prove a fillip for the UK's indie record companies.

During the first 20 weeks of 1991 the number of singles released is up by 12.8% to 1,648, compared with 1,460 in the same period last year.

That is an extra 10 releases a week with the independent labels making up most of the extras, according to chart analyst Alan Jones.

"The majors are probably not releasing any more than they used to," he says. "The extra is being made up by Indies, especially the dance specialists."

Indie distributor **Pinnacle's** year tends to back this up; releasing an average of 12 singles a week this year, compared with about eight or

One reason is that with sales depressed, it is easier than ever to earn a hit. "You can get into the Top 50 or 60 with a 15,000 or 16,000 ship-out at the moment," says **Dickson**.

It is a situation which benefits Indies more than majors, who often consider the format simply as a promotional tool for albums.

single hits — are prime examples of that attitude.

However, top of the pile is **KLF** (pictured). The dance collective led by **Bill Drummond** has given hope to every small indie label. Even when it had a number one single with **3AM Eternal**, there was still no album on the way. Instead **The White Room** was hurriedly put together to capitalise on the chart-topper.

Labels like **KLF Communications** are able to make the most of the current climate, thanks partly to the boost of home studio technology and low overheads, making it relatively easy to produce a 2,000-copy single release on a shoestring and be confident of making a profit, says **Alan Jones**.

It all adds up to an attractive market for the
