## CHART FOCUS

**W**ith its sales dipping a mere 2%, **Bryan Adams' single (Everything I Do) I Do It For You** still has a two to one sales lead over its nearest rival, and romps home for a sixth week at number one.

It is unassailable for at least one more week, and will thus become the longest running number one since 1984, when **Frankie Goes To Hollywood's Two Tribes** spent nine weeks at the top.

The next number one will probably be either **Right Said Fred's I'm Too Sexy**, or, more likely, **PM Dawn's Set Adrift On Memory Bliss**. The latter disc debuts at number five this week, beating the number 14 peak of last year's **Queen Latifah/De La Soul hit Mama Gave Birth To The Soul Children** to become the biggest hit to date for **Gee Street**, and justifying Island's decision to rescue the label.

Based largely on **Spandau Ballet's** number one hit **True**, the **PM Dawn** hit has created new demand for the **Spandau**

track, which will be re-issued as a single next week, to be followed next month by a **Spandau Ballet Best Of...** compilation.

Let go by **Polydor** after an association spanning a decade, **Level 42** bounce back, with their debut **RCA single, Guaranteed**, entering the chart at number 17. Their 24th hit in total, it's already their most successful since **Heaven In My Hands** reached number 12 three years ago.

They're not the only act on the comeback trail with a new label: **Midge Ure** registered nearly 30 hits in the eighties, recording with **Ultravox**,

**Visage, Mick Karn, Band Aid** and solo, but has been absent from the chart since 1988. Newly signed to **Arista**, he debuts at number 31 with **Cold, Cold Heart**.

The publicity given to the upcoming **Terminator 2** film pays dividends for **Guns N' Roses**, whose song **You Could Be Mine** — featured in the film — rebounds from number 17 to number 16 this week.

Meanwhile, the lack of superstar product has resulted in a bigger summer slump in album sales than usual this year, with only a trickle of new entries to the artist album chart.

The current economic gloom is helping TV merchandisers to get cut-price airtime, with the result that four of the ten best selling albums this week are multi-artist compilations made for TV. It's even allowed **Virgin** the rare luxury of advertising a single (**BEF'S Family Affair**) on TV, giving it sufficient impetus to finally crack the Top 40.

## ANALYSIS

**T**he Reggae Music Association's decision to lobby for an official CIN chart has highlighted the issue of genre charts.

Technically there is little to stop the proliferation of any number of specialist genre charts. ERA, the Spotlight Publications subsidiary which compiles genre charts from CIN data for *Music Week*, classifies new releases into 65 categories. Theoretically there could be a chart for each.

However, in reality establishing a viable chart demands significant sales, a panel to provide them, and most important of all — as the proponents of the Scottish Chart have discovered — sufficient cash backing to fund the whole process.

The basis of all MW sales charts remains the full Gallup panel.

### HOW GENRE CHARTS ARE COMPILED

Chart	Panel	Selection by	Sampling period
Classical	Full	Gallup	Two weeks
Country	Full	Gallup/CMA	Two weeks
Dance	71 specialists	ERA	One week
Folk & Roots	Indies/selected multiples	ERA	Four weeks
Jazz & Blues	Indies/selected multiples	ERA	Four weeks
Metal	Indies/selected multiples	ERA	Two weeks

meaningful statistics.

But even the Top 1,000 is insufficient to provide statistically significant heavy metal or jazz charts. The panel for these charts excludes multiples such as Woolworths to give minority music a higher profile. In the case of jazz even this has been insufficient. Four weeks data have to be used and then jazz has had to be combined with

panel of 71 dealers who each sell at least five times more dance music than average.

Reggae is unlikely ever to be able to generate such a panel. It may also find it difficult to generate sufficient media interest to pay for a chart.

CIN's Wistreich argues that a better bet for a new specialist chart could well be an MOR or easy listening
