THE OFFICIAL UK CHARTS

CHART FOCUS

Oasis's (What's The Story) Morning Glory? is one of several albums by Brits nominated

bands to respond to the publicity in the run-up to the awards last week with an increase in sales. Morning Glory enjoys a week-on-week hike of 32%, but still winds up losing its position at the top of the chart, as fellow Brit-poppers **The Bluetones** make a spectacular debut with their first album Expecting To Fly selling more than 80,000 copies last week to top the chart.

With **The Bluetones** album on Superior Quality, Oasis on Creation and the **Saw Doctors**, whose album Same Ol' Town is at number six, on Shantown, indie distributors came as close as ever before to having three albums in the top five - though only the Shantown label is truly independent, with Creation partly owned by Sony and Superior Quality being an offspring of A&M and, ultimately, PolyGram.

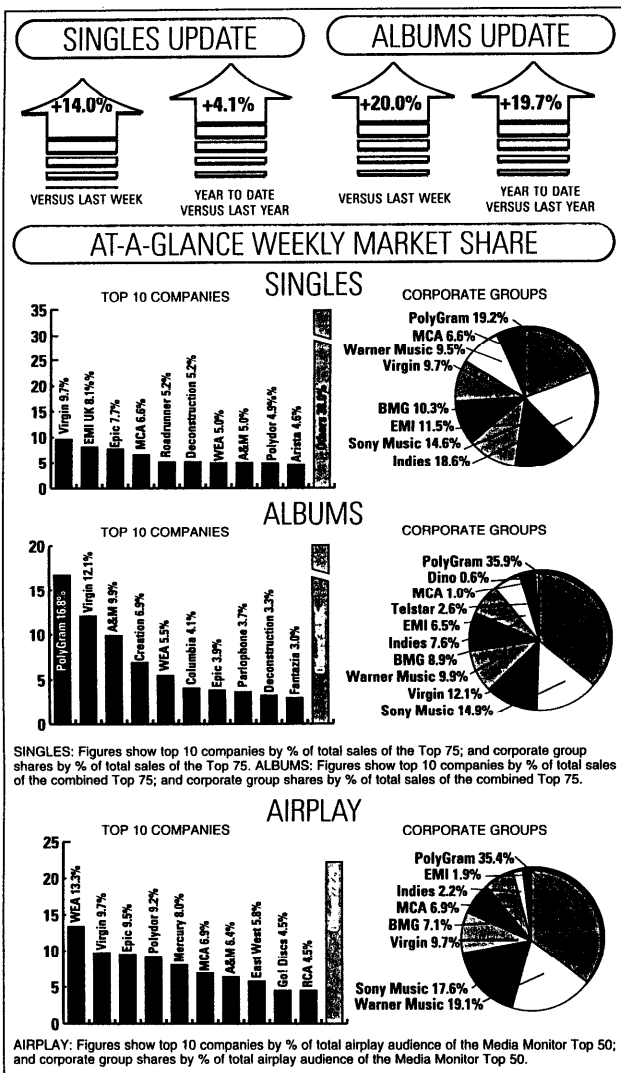

One Little Indian's **Bjork** follows up her biggest hit, It's Oh So Quiet, with her highest chart debut. It's Oh So Quiet entered the chart at number nine, while her new single Hyperballad enters at number eight. It is the fourth hit from her platinum album Post.

Aside from Bjork, the enterprising One Little Indian has seen chart success already this year from the Shamen and Skunk Anansie, and is about to register another with the upcoming Credit To The Nation single.

It was common currency within the industry in the week that **Robert Miles'** single Children was a good bet to top the chart, but it was eventually overtaken by 3T, only for **Babylon Zoo** to end up at number one for the fifth week. Spaceman has arrested its fast decline somewhat, dipping only 21% this week, compared to 37% in each of the previous two weeks. It has had an excellent run at the top, selling 925,000 copies to date. Robson & Jerome's Unchained Melody aside, no debut hit has spent this long at number one since KWS's Please Don't Go in 1992.

Babylon Zoo's tenacity may well have ruined 3T's chances of getting to number one, as Robert Miles and Oasis are going to prove tough opponents. Had 3T managed to reach the top, they'd have been the first all-sibling act to do so since 1987, when the Bee Gees ruled with the aptly titled You Win Again, and they'd have been the first act to have a single climb to number one, as opposed to debut there, since Michael Jackson's You Are Not Alone last September.

As anticipated last week, the heavy release schedule brought a big increase in singles sales (14%) and another bumper crop of new entries. It was

The Lighthouse Family's Lifted continues to command massive

airplay with 1,446 spins last week, 255 more than any other disc and enough to keep it at number one on the chart by a massive margin.

When **Free As A Bird** was released to radio by EMI, it was an instant and huge airplay success, debuting on the chart at number two. **The Beatles'** upcoming single Real Love, however, makes a lesser impact this week. Serviced to radio by satellite last Wednesday (February 14), it enters the chart at number 55, after winning an average of less than two pays per station. One of its earliest supporters was Virgin 1215, which played it eight times before midnight on Saturday. **Free As A Bird** entered the Capital chart at number one but Real Love doesn't even make the station's Top 50 this week.

There are four records by American acts among the top seven, but it is unlikely there will be any next week. This, of course, will be a direct result of Radio One's policy to play only British music between today (Monday) and Friday. It will have less of an effect on artists like **Etta James**, who is attracting curiously little interest from Radio One than, for example, **The Red Hot Chili Peppers** whose Aeroplane single has been a solid favourite on the national network since it was first released. So popular, in fact, that this week it moves to the top of the Radio One chart, replacing **The Bluetones** on the throne after four weeks. Obviously Radio One will be playing music from overseas at the weekend and after 7pm on Friday, but for an act like the Red Hot Chili Peppers, who are getting 87% of their audience from the station, that's cold comfort.

Radio is trying hard to catch up with last week's sales sensation **Luniz's** I Got 5 On It. The record was placed 97th on airplay when it debuted at number three on the CIN chart last week, but now surges to number 34. On Radio One it moves from number 45 to number nine - this despite the fact that it's initially baffling title has been explained as a clear drug reference. The 5 in the title is \$5, being a contribution to the \$10 necessary to buy a parcel of drugs in Oakland, California.

Finally, the shock disintegration of **Take That** has paid airplay dividends. Their new single, How Deep Is Your Love, moves only 9-8 but wins an extra 377 spins, while there's also considerable increased support for the group's back catalogue, notably Back For Good, which rebounds 85-62, and Never Forget, which was not among the 200 most played discs last week but which is now number 95.
