THE BLACK EYED BEANS LET IT STARTED					

6. Stenobrygida
Family: Iseuridae
Species: *Stenobrygida*
The *Stenobrygida* is a small, deep-bodied, blackish-brown fish, reaching a maximum length of 10 cm. It has a deep, compressed body with a high, rounded snout. The head is covered in bony scutes, and the eyes are small. The body is covered in a pattern of dark spots and bands. The fish is found in shallow, brackish water, and it feeds on small crustaceans and mollusks. It is a common species in the coastal waters of the North Atlantic.
